To create a course please select the "Create New Course" button. You wil be given a text editor that will allow you to add not only text but images and video. You will be able to format and change how your course's steps will look with this editor as well. In the future we hope to have a drag and drop functionality to make creating courses easier but for ow it will be all within this editor.

Fire Triangle

Heat, oxygen, fuel

#### Apollo 11

Apollo 11 was the spaceflight that landed the first humans, Americans Neil Armstrong and Buzz Aldrin, on the Moon on July 20, 1969, at 20:18 UTC. Armstrong became the first to step onto the lunar surface 6 hours later on July 21 at 02:56 UTC.

Armstrong spent about three and a half two and a half hours outside the spacecraft, Aldrin slightly less; and together they collected 47.5 pounds (21.5 kg) of lunar material for return to Earth. A third member of the mission, Michael Collins, piloted the command spacecraft alone in lunar orbit until Armstrong and Aldrin returned to it for the trip back to Earth.
